

DARNEL®

Cutlery Sets

Robotized from pellet to pallet

You will be the first human to touch our cutlery

At Darnel, we developed Clean Touch Technology®, a state-of-the-art technology used to manufacture highly resistant cutlery through a completely automated process. From the moment the machine receives the raw material until the cutlery is packaged in individual bags and boxes, there is no human contact. This ensures complete hygiene during the manufacturing and packaging process until the product reaches the final consumer.

Our products are Eco-efficient: eco-friendly and affordable, 100% recyclable.

Our compact boxes result in significant benefits for our clients in terms of **storage space saving**, as well as easy handling and transportation, thus optimizing resources.

Also, this compact design helps the environment by reducing emissions during transportation, and using less cardboard.

Cutlery Sets

Item #			Description	Case
● DSF00	○ DSF01	● DSF99	Fork Darnel Individual Packaging	500 ct / Pack x 1
○ DSG01			Dessert Spoon Darnel Individual Packaging	500 ct / Pack x 1
● DSH00	○ DSH01	● DSH99	Knife Darnel Individual Packaging	500 ct / Pack x 1
