

Foam Hinged-Lid Take Out Containers

100% recyclable and low carbon footprint packaging products

The economic and functional solution for foodservice packaging.

100% recyclable

100% CFC Free

90% air

Our exclusive wave design weighs 15% less than before while maintaining their rigidity.

Ideal for packaging and protecting hot or cold foods, our foam packaging preserve food better than options such as paper or cardboard, avoiding waste.

Being 100% reusable and recyclable, they can be transformed for other uses, including new packaging.

Our foam packaging is as sustainable as economic

A minimum of natural resources is required for its manufacturing compared to cardboard products.

Since the packaging is so light, **there are less emissions used to transport** it and therefore help prevent global warming.

Consumes up to 3 times less energy and 170 times less water in its manufacturing than paper alternatives.

Foam Hinged-Lid Take Out Containers
