

# TAMI Cutlery Clean Touch®

# TAMI Cutlery Clean Touch®

Fully automated production and packaging. Economical and high-quality disposable products.

# Robotized from pellet to pallet

You will be the first human to touch our cutlery

At Darnel, we developed Clean Touch Technology®, a state-of-the-art technology used to manufacture highly resistant cutlery through a completely automated process. From the moment the machine receives the raw material until the cutlery is packaged in individual bags and boxes, there is no human contact. This ensures complete hygiene during the manufacturing and packaging process until the product reaches the final consumer.

Our products are Eco-efficient: eco-friendly and affordable, 100% recyclable.

Our compact boxes result in significant benefits for our clients in terms of **storage space saving**, as well as easy handling and transportation, thus optimizing resources.

Also, this compact design **helps the environment by reducing emissions during transportation, and using less cardboard.**

# TAMI Cutlery Clean Touch®

Item #	Description	Case	Weight	Pallet	Cube
○ D81102001	Fork TAMI	1.000 ct / Pack x 20	5.3 lb	22 x 6	0.3 ft <sup>3</sup>
